

## Tees, Crosses, Elbows

<b>Cross:</b>	Pressure-containing fitting with (a minimum of) four openings in a plane
<b>Tee:</b>	Pressure-containing fitting with three openings in a plane
<b>Elbow:</b>	Pressure-containing fitting with two (angled) openings

Crosses, tees and elbows are provided in sizes from 2 1/16" to 7 1/16" with working pressures from 2000 psi to 15000 psi and trim AA - HH.

All crosses are manufactured by default with studed connections, while other connection methods are available upon request.
